## CAST IRON GUTTERS

Cast iron gutters are a strong and durable rainwater solution that have been proven to last well in excess of 100 years.

Cast iron rainwater systems stay true to historic styles and therefore preserve the aesthetics of the original architecture of conservation buildings, or new projects that wish to respect local heritage.

- Half round system carried in stock in both a black and primed finish
- 100, 115 and 125mm widths in stock
- Bespoke hopper heads available
- Lasts more than 100 years
- Take-off facility from technical drawings available
- 3 colour options – primed, black gloss and premier extra colour

Grey  
Primed

Gloss  
Black

Premier  
Extra Colour

**“A cast iron guarantee.”**

A **specialist** company operating  
in a **specialist** field.

## ALUMINIUM GUTTERS

Perfect for the replacement of cast iron gutters where a traditional style is still required.

- Life expectancy of 50 years or more
- Almost-zero maintenance, only periodic aesthetic cleaning required
- Marine grade aluminium throughout for high corrosion resistance and ideal for use in coastal or heavily polluted urban areas
- Half round, Victorian Ogee and Moulded Ogee available

**ALUTEC**  
ALUMINIUM RAINWATER SYSTEMS

ALUMASC  
**RAINWATER™**

## ALUMINIUM COPINGS

An economic and stylish finish to any Parapet or Boundary wall. They are specially made to your exact requirements.

- Powder coated
- Easy to install & Low maintenance
- Lightweight & adaptable
- Several BBA approved coping systems available
- Available in stock colours and made to order colours

**BBA**

# STEEL GUTTERS

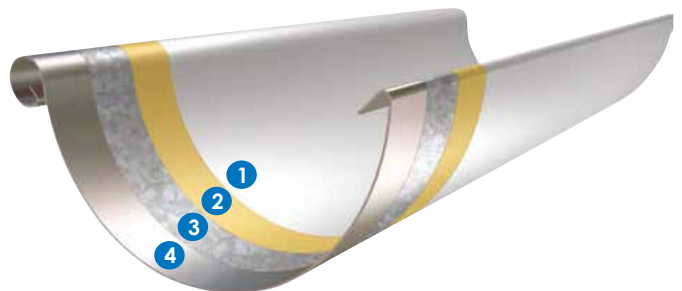

Steel gutters have a low heat expansion/contraction coefficient meaning they can withstand the strain of extreme weather changes, also eliminating any creaking caused by temperature changes

ALUMASC  
RAINWATER™

**“The superior rainwater system.”**

1. High-build polyester paint
2. Primer coating
3. Zinc coating
4. Steel sheet

Steel gutters are incredibly strong and can withstand the most extreme elements. Several styles and colours are available.

## PVC-U GUTTERS

We stock huge quantities of all the leading brands of PVC-U guttering including FloPlast and Osma. We also offer the Terrain, Marley and Hunter rainwater systems to order with quick lead times.

**Special Fabrication service  
available**

- No painting
- Lightweight and easy to install
- Strong and reliable
- Dry joint seal, therefore leak free
- Cost effective solution
- Fabrication service available

## FloPlast

- We stock all the Floplast systems including half round, square, ogee, hi cap and cast iron effect..
- 5 colours available including Anthracite Grey

## OSMA

- We stock all the Osma Systems including Roundline, Squareline, Deepline, Stormline - also 5" & 6" Half Round
- Unique gutter seal secured into special grooves
- Fittings engineered with concealed sockets to hide roughly cut downpipe ends

# ROOFLINE

We stock a huge range Homeline Rooflines, Cladding and Trims in 14 different colours. Both White and Foiled rooflines carry BBA accreditation which is unique in the industry.

Homeline produce the UK's only BBA approved recycled roofline called Core. It looks identical once installed, so much so you wouldn't know it's recycled.

**Homeline is a brand manufactured by gap.**

# LADDERS

We have 45 years' experience selling the leading industry brands of Ladders available. Lyte have been manufacturing Aluminium and Glass Fibre access equipment for over 70 years and are proud to be one of the only companies still producing ladders in the UK.

- Extension ladders
- Roof ladders
- Loft ladders
- Combination ladders
- Platforms
- Towers and staging set-ups

A wide range of ladder accessories are available including stand offs, roof hook kits, roof rack clamps, laddermate, feet, mitts and much more.
